

Please note that radio station K-LOVE serves me as a local resident to Lincoln NE. This station provides meaningful information to me and the local community with regard to programming content. To have K-LOVE displaced due to a LPFM broadcaster would be a negative impact on both myself and other local area residents. The service provided by K-Love is uplifting music, timely news and information that serves the public interest. Please do not allow LPFM stations to take priority over K-LOVE as a current FM translator station in our local area or others. They provide a valuable and much-needed service. Thank you.
